Proficient in managing calendars, organizing meetings and events, handling confidential documents, and communicating with internal and external stakeholders. Possess exceptional communication and interpersonal skills with a proven ability to work independently and as part of a team.

EDUCATION

Anand Niketan College, Anandwan
Bachelor of Science
2020 - 2023

SKILLS

- Programming language : C#.

- Technologies : ASP DotNet, ADO DotNet, API's, Window's Services, DotNet Core

- Database : MicrosoftSQLServer-2008R2

- IDE/Tools : MSVisual Studio-2013/2015, Visual Studio Code

- Operating System : Windows

- Scripting languages : HTML, JavaScript, CSS

- Design Principles : SOLID, ACID

- Webserver : IIS

TRANING DETAILS

Trained on .net Technologies at Sathya Technologies for a period of 6 months.

Project Details:

- Project Title : BLOOD BANK
- Environment : ASP.net , SQL Server
- Duration : 5 days

- Description:
  Designed and developed the Blood Bank Management System, a dynamic web application that revolutionized blood donation processes.

 This project included:
- Real-time Blood Availability: Implemented a robust system for tracking blood availability in real-time.
- Donor Information Management: Created a user-friendly interface for efficient donor information management, enabling administrators to oversee donors effectively.
- Donor Registration: Designed a seamless registration process for donors, facilitating easy sign-up for potential blood donors.
- Local Donor Locator: Integrated a feature allowing users to find donors within our city and state, ensuring timely access to blood resources.
- Donor Availability Control: Implemented a mechanism to restrict donors from donating blood within the subsequent 90 days after their last donation, ensuring donor safety.
- This project showcased proficiency in ASP.NET, C#, and SQL Server while contributing to the enhancement of blood donation processes, positively impacting community healthcare.

PROFESSIONAL EXPERIENCE

Software Developer at Revalsys Technology (20 sep 2023 till Present)

- Developed an API that perform curd operataion by using 3tire articture, resulting in a increase in productivity.
- Developed a sophisticated web application from scratch using Asp.Net and Ado.Net technology , resulting in a improvement in user engagement.
- Perform code tests that increased code coverage to reducing the number of production issues.

Declaration :

I here by declare that above mentioned information is true best of my knowledge.
